218 - Right of Way Acquisition for Electrical Transmission Projects

Instructor

Blandon Granger, SR/WA

I have been in the Real Estate industry for nearly 20 years. I got my start in the Silicon valley working technology solutions for the industry.

Currently as The Supervisor of Real Estate Services at Sacramento Municipal Utility District, I am responsible for the real estate activities of the nation's sixth-largest publicly owned electric utility. With an annual budget of \$1.6 Billion, SMUD is a leader in renewable technologies and developing energy projects.

A few years back I also stepped forward to serve my city as a Commissioner, City of Roseville Public Utilities Commission, where I am responsible to the city council for recommendations on policies concerning the evaluation, operations and compliance with State and Federal rules and regulations as related to the city's power, water, sewer, waste management and cable utilities within the city limits.

I also commit a lot of my time supporting many non-profit organizations in my community.
